

# BidEZY

AI-Driven Healthcare Procurement Automation

# The BidEZY Advantage

BidEZY is purpose-built for hospitals to deliver **control, transparency, and predictability**—without adding operational friction. Technology stays in the background; governance stays front and center.

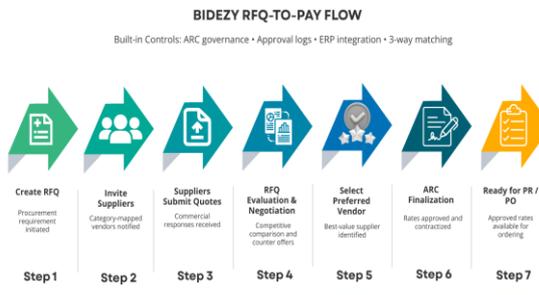

## 1. Supplier Onboarding (Controlled & Audit-Ready)

- Buyer-initiated invitations with structured self-registration
  - Multi-level, role-based approvals with full audit trails
  - ERP ready vendor master data creation
- Outcome:** Faster onboarding without compliance dilution

## 2. RFQ & RFP (Disciplined Sourcing)

- Category-mapped supplier invitations
  - Standardised quote submission with L1/L2/L3 visibility
  - Negotiation traceability and digital ARC finalisation
- Outcome:** Transparent sourcing + long-term rate stability

BidEZY gives hospitals a single, governed procurement backbone—handling complexity while preserving accountability.

Predictable. Transparent. Compliant.

## 3. Live Auctions (Competitive, Not Chaotic)

- Real-time bidding among approved suppliers only
  - Locked results routed through approvals before PO
- Outcome:** Price discovery with governance intact

## 4. PR → PO → GRN → Invoice (Execution with Traceability)

- PRs linked to approved contracts
  - PO automation with ERP sync
  - GRN-based receipt validation
  - Three-way invoice matching
- Outcome:** End-to-end visibility from demand to payment

## 5. Governance, ERP & AI Insights

- Role-based approvals, time-stamped actions, document versioning
  - Seamless ERP integration
  - AI-driven spend, forecasting, and performance analytics
- Principle:** AI-assisted insights with hospital-controlled decisions
